

CXAI Announces Five Major Enterprise Renewals and Advances Agentic AI Roadmap Across Global Deployments

December 18, 2025

Five enterprise renewals, including three Fortune 500 companies, reinforce CXAI's position as a mission-critical workplace platform as the Company expands its agentic AI and CXAI VU spatial intelligence capabilities

PALO ALTO, CA / [ACCESS Newswire](#) / December 18, 2025 / [CXApp Inc.](#) (Nasdaq: CXAI), the emerging category leader in AI-powered workplace experience and spatial intelligence, today announced the completion of **five significant enterprise renewals, including three Fortune 500 companies**, alongside continued progress in its **agentic AI roadmap** and the expansion of **CXAI VU**, the Company's next-generation spatial intelligence and visualization platform.

The renewed relationships span **global, multi-campus deployments across more than 30 countries**, reinforcing CXAI's role as a **daily-use, mission-critical platform** embedded in workplace operations for some of the world's largest and most complex organizations.

Why Enterprises Standardize on CXAI

Enterprises deploy and renew CXAI because the platform **solves a core operational problem**: orchestrating people, space, and services across large, distributed environments in real time.

CXAI is used by enterprises to:

- **Coordinate daily workplace operations** across offices, campuses, and regions
- **Enable hybrid work at scale**, supporting flexible attendance, reservations, and space utilization
- **Provide employees with a single, intuitive interface** for navigating offices, accessing services, and planning their workday
- **Deliver real-time visibility** into how spaces are used and how employees engage with the workplace
- **Reduce operational friction** across facilities, IT, workplace experience, and real estate teams

As a result, CXAI becomes embedded into **daily employee workflows and operational decision-making**, rather than functioning as a standalone application.

Five Major Enterprise Renewals Validate Platform Reliance

Recently completed renewals followed **multi-year production deployments** in which CXAI has been deeply integrated into daily workplace operations. These renewals reflect sustained enterprise reliance on the platform to support employees as they plan their workday, navigate offices, reserve desks and rooms, and access essential workplace services in real time.

Across renewing customers, CXAI has evolved from a point solution into a **foundational operational platform**, relied upon by employees, facilities teams, and workplace leaders to support hybrid work, global footprints, and complex operating environments. CXAI is a key part of these enterprises' focused efforts on both Return-to-Office (RTO) as well as creating amazing employee engagements.

Agentic AI Roadmap: Advancing Toward Autonomous Workplace Operations

CXAI continues to advance its **agentic AI roadmap**, designed to move beyond static analytics toward **AI-driven systems capable of reasoning, recommending, and autonomously executing workplace workflows**.

Key focus areas of the agentic AI roadmap include:

- Automating complex workplace workflows such as space reservations, service requests, and operational coordination
- Proactively identifying inefficiencies and recommending actions across people, space, and services
- Enabling real-time orchestration across digital and physical workplace environments

These capabilities are intended to reduce operational friction, improve responsiveness, and support enterprises as they transition toward more intelligent, AI-assisted workplace operations.

CXAI VU: Spatial Intelligence and Visualization at Enterprise Scale

CXAI VU extends the Company's platform with **advanced spatial intelligence, visualization, and analytics**, enabling enterprises to better understand how their spaces are used and how employees interact with the workplace.

CXAI VU enables organizations to:

- Visualize space utilization and workplace activity across campuses and regions
- Analyze patterns of movement, engagement, and collaboration
- Support data-driven planning for hybrid work, real estate optimization, and workplace design

Together, agentic AI and CXAI VU provide enterprises with a **unified, real-time view of people, places, and activity**, forming the foundation for more adaptive and responsive workplaces.

Enterprise Validation Across Key Verticals

CXAI's renewed deployments span **media and entertainment, global technology enterprises, healthcare organizations, and marquee public destinations**, where reliability, scale, and real-time responsiveness are critical.

Customers continue to expand usage beyond reservations into **navigation, communications, services, and operational coordination**, underscoring CXAI's role as a comprehensive workplace experience and intelligence platform.

"These renewals reflect reliance, not experimentation," said [Khurram Sheikh](#), **Chairman and CEO of CXAI**. "When Fortune 500 enterprises renew after operating a platform at scale, it validates both the strength of our current offering and the strategic direction of our roadmap."

"As workplaces become more distributed and complex, the ability to orchestrate people, space, and services through agentic AI and spatial intelligence becomes increasingly important. That is exactly where CXAI is focused."

About CXApp Inc.

CXApp Inc., is the global technology leader in employee workplace experiences. The Company is headquartered in the SF Bay Area and operates the CXAI SaaS platform that is anchored on the intersection of customer experience (CX) and artificial intelligence (AI) providing digital transformation for the workplace for enhanced experiences across people, places and things.

CXAI's customers include major Fortune 1000 Global Companies in the technology, financial services, consumer, healthcare, and media entertainment verticals.

Forward-Looking Statements

This press release includes "forward-looking statements" within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995. The expectations, estimates, and projections of the Company may differ from its actual results and consequently, you should not rely on these forward-looking statements as predictions of future events. Words such as "expect," "estimate," "project," "budget," "forecast," "anticipate," "intend," "plan," "may," "will," "could," "should," "believes," "predicts," "potential," "continue," or the negative or other variations thereof and similar expressions are intended to identify such forward looking statements. These forward-looking statements include, without limitation, expectations with respect to future performance of the Company, including projected financial information (which is not audited or reviewed by the Company's auditors), and the future plans, operations and opportunities for the Company and other statements that are not historical facts. These statements are based on the current expectations of the Company's management and are not predictions of actual performance. These forward-looking statements involve significant risks and uncertainties that could cause the actual results to differ materially from the expected results. Factors that may cause such differences include, but are not limited to: the impact of the COVID-19 pandemic on our business, operations, results of operations and financial condition, including liquidity for the foreseeable future; the demand for the Company's services together with the possibility that the Company may be adversely affected by other economic, business, and/or competitive factors or changes in the business environment in which the Company operates; changes in consumer preferences or the market for the Company's services; changes in applicable laws or regulations; the availability or competition for opportunities for expansion of the Company's business; difficulties of managing growth profitably; the loss of one or more members of the Company's management team; loss of a major customer and other risks and uncertainties included from time to time in the Company's reports (including all amendments to those reports) filed with the SEC. The Company cautions that the foregoing list of factors is not exclusive. You should not place undue reliance upon any forward-looking statements, which speak only as of the date made. The Company does not undertake or accept any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements to reflect any change in its expectations or any change in events, conditions, or circumstances on which any such statement is based, except as required by law. These forward-looking statements should not be relied upon as representing the Company's assessments as of any date subsequent to the date of this communication.
