CXAI Signs $1.4M+ Multi-Year Global Enterprise Agreement, Building Financial Services Momentum

September 14, 2026

Two recently announced global financial services agreements now represent more than $3.9 million in aggregate contracted valueLatest agreement deploys CXAI across 10,000+ employees and approximately 40 locations worldwide

Two recently announced global financial services agreements now represent more than $3.9 million in aggregate contracted value

Latest agreement deploys CXAI across 10,000+ employees and approximately 40 locations worldwide

PALO ALTO, CA / ACCESS Newswire / September 14, 2026 / CXApp Inc. (NASDAQ:CXAI), an enterprise agentic AI platform company, today announced a three-year agreement with a global investment management organization valued at more than **$1.4 million.**

Combined with CXAI's recently announced **$2.5 million+ multi-year agreement with a Fortune 100 global financial services company**, CXAI has now announced **more than $3.9 million in aggregate contracted value across two global financial services enterprise agreements**, demonstrating growing commercial momentum with large, regulated enterprises.

The latest agreement licenses the CXAI platform to more than **10,000 employees across approximately 40 locations** in North America, Europe and Asia Pacific. Implementation is underway, beginning with a phased deployment and scaling to the full licensed population.

The customer selected CXAI following a competitive evaluation and extensive security, privacy and procurement reviews. CXAI differentiated itself through its agentic AI platform roadmap, ability to integrate into complex enterprise environments and experience supporting large global workplaces.

The deployment includes three core capabilities: **Employee Experience**, providing a single global application for workplace services; **Enterprise Communications**, enabling targeted communications across mobile, web and collaboration channels; and **Workplace Intelligence**, using CXAI Vu analytics to turn workplace activity into actionable space, occupancy and portfolio decisions.

"This is becoming a pattern," said Khurram Sheikh, Chairman and CEO of CXAI. "Two recently announced global financial services agreements representing more than $3.9 million in contracted value demonstrate growing commercial validation for CXAI 2.0 among sophisticated global enterprises. Both organizations independently put CXAI through rigorous competitive, security and procurement processes and selected our platform."

"We believe this is how we build long-term shareholder value: win large enterprise customers, execute successful deployments, grow recurring revenue and expand those relationships as we introduce additional agentic AI capabilities. Our focus now is execution and building on this momentum."

CXAI is building its platform as an agentic AI operating layer for the enterprise, connecting people, places, workflows and data to help organizations move from intelligence to action. CXAI 2.0 capabilities include conversational analytics in CXAI Vu, enabling enterprise leaders to query workplace data in natural language and move from insight to prioritized decisions.

About CXApp Inc.

CXApp Inc. (NASDAQ: CXAI) is an enterprise agentic AI platform company focused on helping organizations improve productivity, automate workflows and enhance business performance through artificial intelligence.

The Company's platform combines operational intelligence, analytics, workplace technologies and intelligent automation to deliver measurable business outcomes across enterprise and mid-market organizations.

Forward-Looking Statements

This press release includes "forward-looking statements" within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform

Act of 1995. The expectations, estimates, and projections of the Company may differ from its actual results and consequently, you should not rely on these forward-looking statements as predictions of future events. Words such as "expect," "estimate," "project," "budget," "forecast," "anticipate," "intend," "plan," "may," "will," "could," "should," "believes," "predicts," "potential," "continue," or the negative or other variations thereof and similar expressions are intended to identify such forward looking statements. These forward-looking statements include, without limitation, expectations with respect to future performance of the Company, including projected financial information (which is not audited or reviewed by the Company's auditors), and the future plans, operations and opportunities for the Company and other statements that are not historical facts. These statements are based on the current expectations of the Company's management and are not predictions of actual performance. These forward-looking statements involve significant risks and uncertainties that could cause the actual results to differ materially from the expected results. Factors that may cause such differences include, but are not limited to: the demand for the Company's services together with the possibility that the Company may be adversely affected by other economic, business, and/or competitive factors or changes in the business environment in which the Company operates; changes in consumer preferences or the market for the Company's services; changes in applicable laws or regulations; the availability or competition for opportunities for expansion of the Company's business; difficulties of managing growth profitably; the loss of one or more members of the Company's management team; loss of a major customer and other risks and uncertainties included from time to time in the Company's reports (including all amendments to those reports) filed with the Securities and Exchange Commission. The Company cautions that the foregoing list of factors is not exclusive. You should not place undue reliance upon any forward-looking statements, which speak only as of the date made. The Company does not undertake or accept any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements to reflect any change in its expectations or any change in events, conditions, or circumstances on which any such statement is based, except as required by law. These forward-looking statements should not be relied upon as representing the Company's assessments as of any date subsequent to the date of this communication.
